That is \$50M+ in equivalent annual marketing spend for competitors that **we get for \$0.**

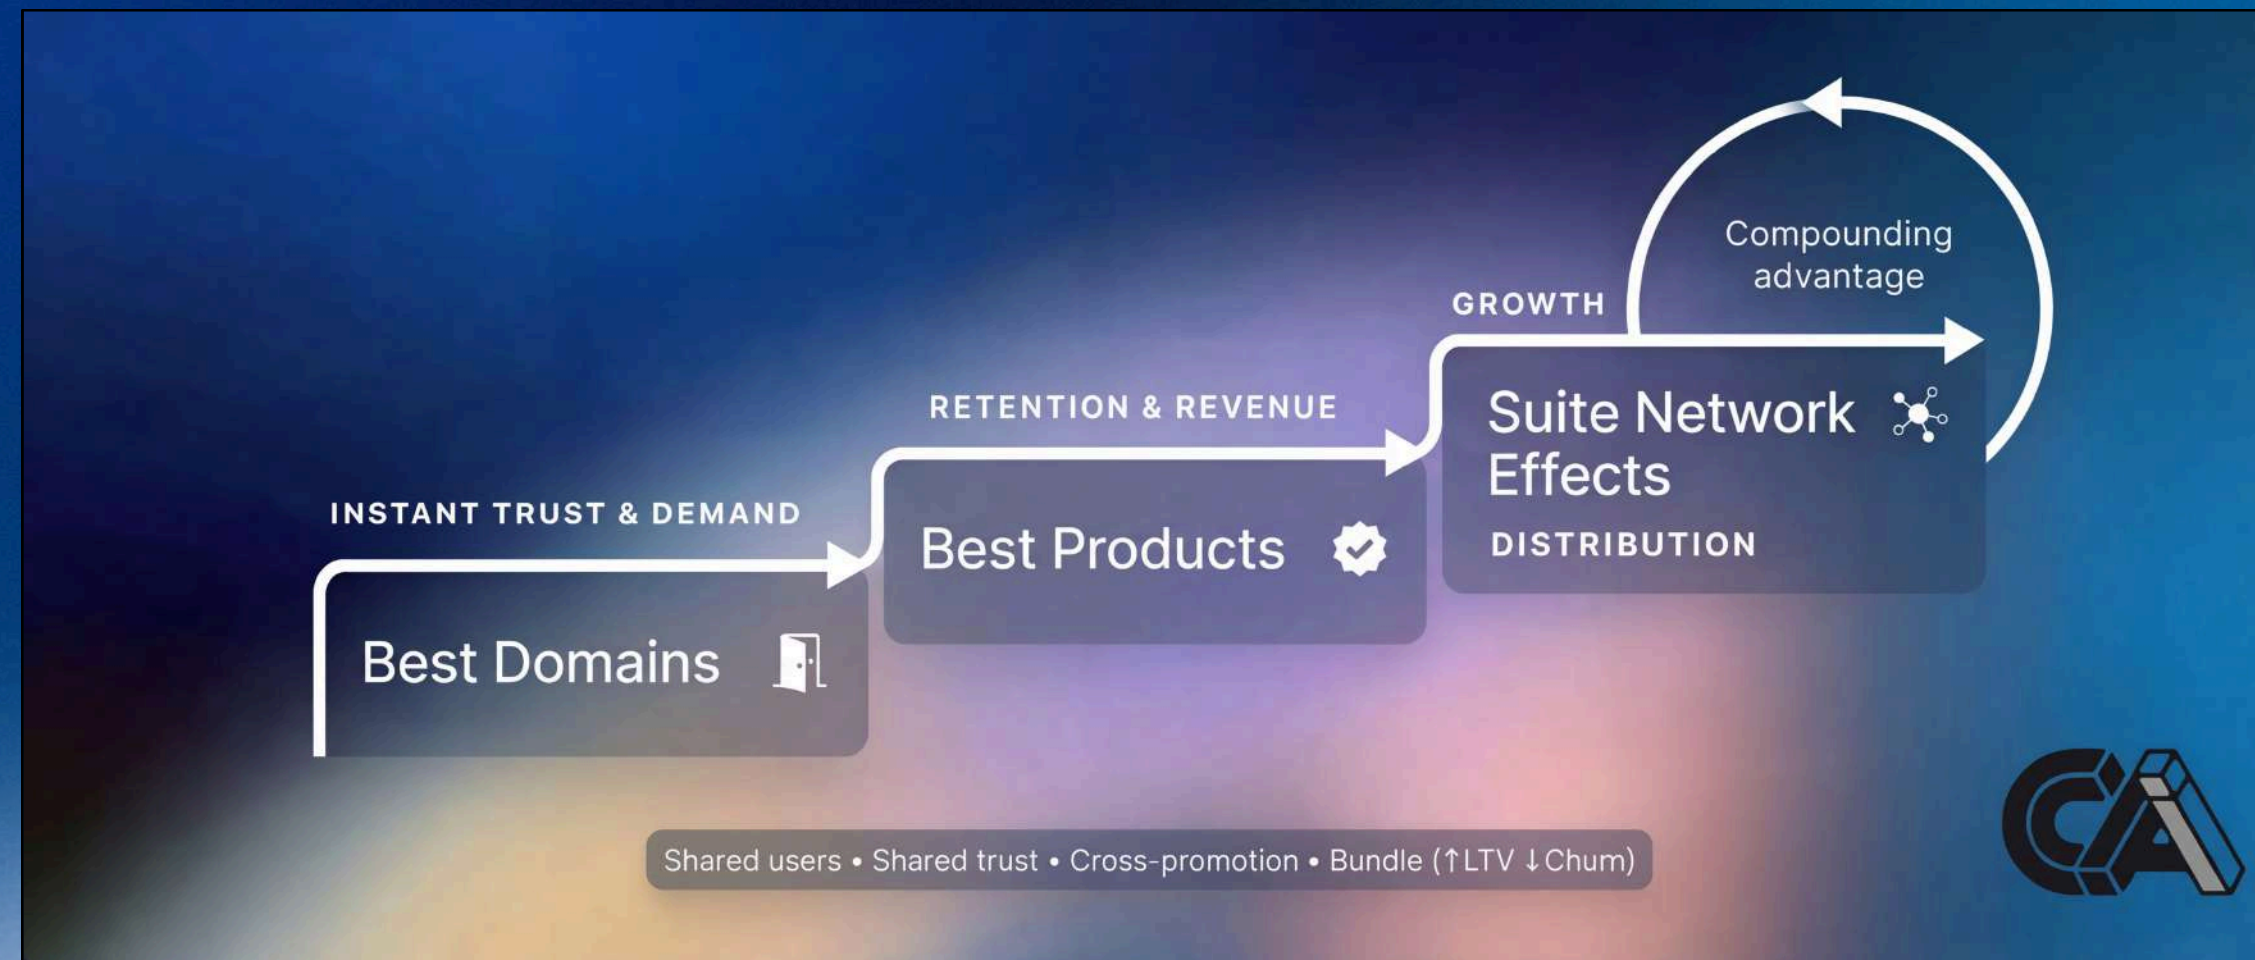

UNFAIR ADVANTAGE

e.g. Email.com Daily Analytics

Unique Visitors	Total Pageviews
15K	20K

500k Unique Visitors | Monthly

Insights from one of the fastest-growing AI companies proving our unfair advantage:

'We started paid when we had no choice to hit our growth nums.

Organic will perform better 10x out of 10. For every \$10 spent in organic you'd spend literally \$1000 in paid.'
